Summary: I asked Mr. Bracke what maximum amount of Am-241 he needed for his license in 8.K. because a number needed to be placed in that location. He said 120 millicuries. I also had inquired previously on 1/24/08 at 11:25 AM (Not logged at the time because there was no mail control number issued) for more information about Mr. Nelkenbaum's experience with unsealed materials. He didn't have any but Mr. Bracke said that he didn't need to supervise 6.A. or 6.B.
