REFERENCE: (1) Docket No. 70-143; SNM License 124  
(2) LEU FNMC Plan Section 1, Revision 6, January 2008  
Section 3, Revision 8, January 2008  
Annex, Revision 6, January 2008

**Subject** **LEU FNMC Plan Changes**

Dear Sir:

Enclosed are three copies of the referenced sections of Nuclear Fuel Services' Fundamental Nuclear Material Control Plan for SNM of Low Enriched Uranium, submitted under the provisions of 10 CFR Part 70.32. Section 1 was revised to describe LEU operations for UNH dilution and tanker loading in Building 440. Section 3 and Annex were revised to reflect management changes in the organization structure. None of the changes decrease the effectiveness of the material control and accounting program or the measurement control program, implemented pursuant to 10 CFR Part 74 Subpart C.

Since a disclosure of the information contained in the attachment to this letter would tend to weaken the safeguards and security measures and is deemed commercial and financial proprietary information within the intent of 10 CFR 9.17(a)(4), it should be withheld from public disclosure under the provisions of 10 CFR 2.790(d).

Sincerely,

*NUCLEAR FUEL SERVICES, INC.*
