To whom it may concern,

Please provide a list of contractors that you currently (within the past 6 months) do business with or have purchase orders with.

I represent the ownership of an office building next to the NRC building on Rockville Pike. We would like contractors, and others you do business with, to know that we have space available for lease. Some contractors prefer to locate offices near your building.

You can email me the list or put it in the mail. My contact information is below.
