Re: NRC License 29-30058-01

Dear Mr. Lodhi,

In the past your office has provided assistance regarding additions to my NRC license (29-30058-01).

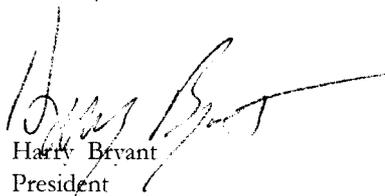

We have two newly hired employees, whom have identical training and experience as me in dealing with sealed source nuclear devices. I would like to have them added to my license as "Authorized Users". For the last 60 days, beginning November 1, 2007, I have closely supervised their activities and am satisfied with their demonstrated knowledge and ability to perform satisfactorily under my license.

I will annually review the requirements of the license with them and include this information in my *Annual Audit Report*. If added to the license, they will be issued dosimetry devices which will be read periodically.

The employees are: Mr. Terry Rhoades and Mr. Robert McKinney.

Please do not hesitate to contact me if you have any questions regarding this request.

Sincerely,

Harry Bryant
President
