NRC PUBLIC MEETING FEEDBACK

Category

1

Meeting Date: 01/08/2008 Meeting Title: NRC/Entergy Meeting on Metal Fatigue

In order to better serve the public, we need to hear from the meeting participants. Please take a few minutes to fill out this feedback form and return it to NRC.

1. How did you hear about this meeting?

COMMENTS OR SUGGESTIONS:

Thank you for answering these questions.

① The public meeting notice (ML073600738) stated the agenda to be "Discussion of the Response to the Request for Additional Information." There have been many requests for additional information (e.g. ML07239035 dated 8-29-2007, ML062150561 dated 8-3-2006, ML062340035 dated 8-16-2006 to name a few). Given the many questions asked in many RAI's, I did not know which question was being discussed at the meeting. Then I learned it was question 4.3.3-Z dated 12-11-2007. In the future, meeting notices should provide clear information on what is being discussed.

COMMENTS OR SUGGESTIONS: (Continued)

② The meeting was noticed as running from 1:30pm to 3:30pm but ran well past 3:30pm. It was obvious from the number of slides that Entergy could not conclude its presentation within the allotted 80 minutes unless no questions were asked. A more accurate meeting duration in the notice would help.

③ Due to public requests, Mr. Rowley set up a phone bridge for the meeting which several stakeholders used. In addition, Mr. Rowley assured the members of the public who attended in person were well cared for. These efforts were both noticed and much appreciated.
