

Comments				Critical (C)- Failure to accept will result in rejection of plan by your Department / Agency. Substantive (S)- Significant, but not a deal breaker. Administrative (A)- grammer, punctuation etc.		
Baseplan	Annex	Page #	Line #	Specific Wording Change	Reason for Change	Comment Type: C, S or A
X		5	21	Define CI/KR	Define abbreviation.	A
X		6	1	Add "financial facilities"	Immediately after a storm, banks and other electronic financial transactions could be affected. This includes debit, credit, and check card transactions as well as check cashing services.	S
X		11	20	Replace "continuity of government." with "maintaining confidence in the government and sustaining critical infrastructure."	To be consistent with the Mission Statement of the document	S
X		13	32	Replace "development" with "implementation"	Development was accomplished in Phase 2.	S
X		15	17	DOC does not serve as the ESF Primary Agency for ESF #14 - Long Term Community Recovery Annex; USDA, DHS, HUD, & SBA do.	Reference: DHS National Response Framework, January 2008, Emergency Support Function #14 - Long-Term Community Recovery Annex	S
X		17	31	DOT does not serve as the ESF Primary Agency for ESF #14 - Long Term Community Recovery Annex	Reference: DHS National Response Framework, January 2008, Emergency Support Function #14 - Long-Term Community Recovery Annex	S
X		18	2	Consider changing the statement to "Coordinates mass evacuation operations with State, local and tribal governments prior to tropical storm winds projected in the area."	This is a significant lesson learned from Hurricanes Katrina and Rita	S
X		21	20	Add "... if the National Capital Region is projected to be impacted."	With no impact on the NCR, there would be no reason to execute COOP/COG contingencies.	S

X		22	14	After Line 14, Move Damage Estimates to Phase 2 and Add "Identification of CI/KR in potentially affected area"	It would be expected that in Phase 1 (Pre-incident) that no damage would have occurred. However, it is vitally important to identify CI/KR in the storm path to develop potential protective actions and other contingencies.	S
X				General Comment - This document does not reference nor comply with the DHS National Response Framework, January 2008.	Revise document as necessary.	S

A vertical column of 30 empty horizontal lines, serving as a template for text entry.

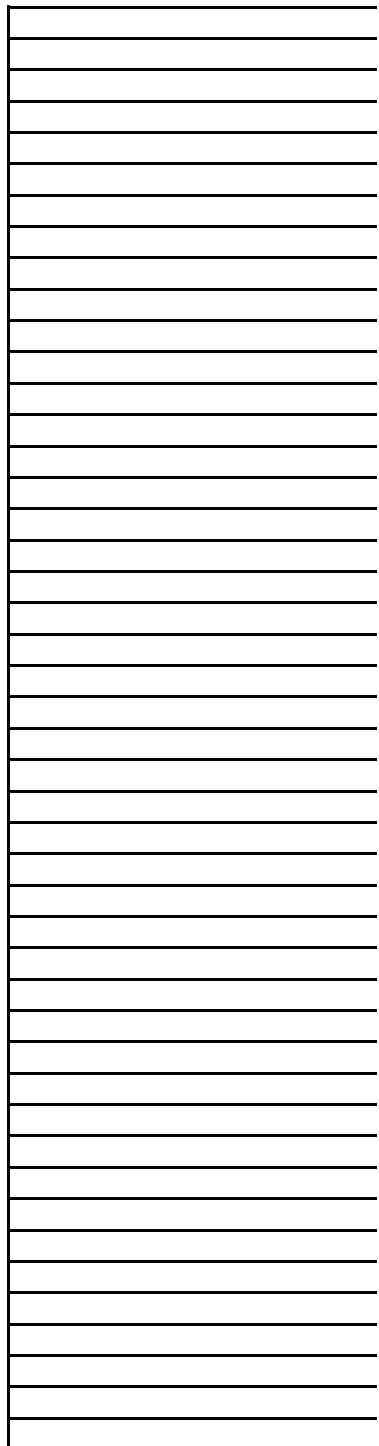

A vertical column of 30 horizontal lines, resembling a list or a set of data points. The lines are evenly spaced and extend across the width of the page.

The image shows a vertical table with 31 empty rows and 1 column. The table is bounded by a vertical line on the left and horizontal lines for each row. The rows are evenly spaced and extend from the top to the bottom of the page.
