Entergy Services, Inc.  
1340 Echelon Parkway  
Jackson, Mississippi 39213

January 30, 2008

Mr. Eric Oesterle, Senior Project Manager  
Division of New Reactor Licensing  
Office of New Reactors  
U. S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

SUBJECT: Modified Copy of Disk Containing Security Plan for Grand Gulf Unit 3 Combined License Application for Pre-Flight Testing

CNRO-2008-00005

Dear Eric:

Enclosed is one (1) copy of a compact disk (CD) containing the Security Plan that will be submitted as part of the Grand Gulf Unit 3 Combined License Application (COLA). I am forwarding the CD for the purpose of testing the compatibility of the electronic information on the disk with the Nuclear Regulatory Commission's information management systems. I understand that you can arrange to have the files "pre-flight" tested to ensure that the Grand Gulf COLA can be uploaded into NRC information management systems in a timely manner following the submittal of the application.

The enclosed disk contains safeguards information and should be withheld from public disclosure in accordance with 10CFR73.21. This disc contains a file that has been modified to correct errors in the previous test disc.

I look forward to hearing from you regarding the success of the testing of the electronic files. I understand that the CD will be destroyed following testing. Please contact me if you have any questions or if you need further information.

Sincerely,

A handwritten signature in cursive script that reads "Thomas L. Williamson".

Thomas L. Williamson  
Manager, New Plant, GGNS

Enclosure: GGNS Security Plan

## SAFEGUARDS INFORMATION

Note: The enclosed disk to this letter contains "Safeguards Information" and must be protected accordingly. Upon separation from the enclosure, this letter is decontrolled.
