

January 15, 2008

Mr. Robert M. Peal
Manager, Nuclear Training
PPL Susquehanna, LLC
Susquehanna Steam Electric Station
769 Salem Boulevard
Berwick, PA 18603-0467

Dear Mr. Peal:

The purpose of this letter is to inform you of the individual examination results for your applicants on the initial written examination conducted on December 7, 2007, and the walk-through (overall) and/or simulator operating tests administered December 10 – 18, 2007 at your facility. This meets the intent of Section E.1 of the Examination Standards (ES 501) in NUREG 1021. Fifteen individuals were administered the examination and twelve passed. However, we will not be issuing licenses for two of the applicants who passed - as explained in Section ES-501, paragraph D.3.c. - because any written examination with a passing grade of 82 percent or below is normally held for review until those applicants who failed the examination have had an opportunity to appeal their license denials.) This information is considered to be "proprietary" in accordance with 10 CFR 2.390 and it supplements the information contained in the related examination report for your facility which will be issued shortly.

Enclosure 1 is the completed ES-501-2, Power Plant Licensing Examination Results Summary, and is a summary of overall examination results.

Enclosure 2 contains the individual results ES-303-1 and 303-2, Operator License Examination Report, for the applicants. Contained therein are the deficiencies noted for each applicant. In accordance with your Systems Approach to Training (SAT) Program, we expect that you will review these results and provide appropriate remedial training for the individual independent of the overall pass status. The applicants have authorized the release of this information to your facility by signing Block 19A of NRC Form 398.

Enclosure 3 is a copy of the licenses.

Thank you for your cooperation in this matter. Please refer any questions you have to me at (610) 337-5046.

Sincerely,

/RA/

Samuel L. Hansell, Jr., Chief
Operations Branch
Division of Reactor Safety

Mr. R. Peal
