Monte Mallin  
U.S. Department of Energy  
1000 Independence Ave, S.W.  
NA-242  
Washington, DC 90585

Dear Mr. Mallin:

I would like to thank you and members of your staff for inviting representatives of the U.S. Nuclear Regulatory Commission (NRC) to participate in the recent workshop on "Planning and Implementing Effective Infrastructure for Nuclear Energy Development," at the Lawrence Livermore Laboratory. The workshop was very well coordinated and the outcome was an obvious success. My staff informs me that the participants from the North African countries were highly engaged throughout the event and demonstrated a keen interest in the material presented. We look forward to participating in future workshops.

The NRC Office of International Programs has been assisting emerging nations who request our help in understanding and developing regulatory programs for nuclear power initiatives. Workshops such as this, sponsored by the Department of Energy, have enabled us to identify contacts and initiate dialog in countries needing assistance. In this way, they provide significant benefit to our nuclear safety cooperation activities. Workshops held in the U.S. are particularly helpful to the NRC in our effort to provide the greatest level of assistance on a limited budget.

We look forward to the continued opportunity to work with you and your staff in the future.

Sincerely,

**/RA/**  
Margaret Doane, Director  
Office of International Programs
