To whom it may concern:

Please amend our license to add Susan Cheng, M.D. as an authorized user for the uses specified in 35.400 and for the Nucletron HDR unit. She had been approved as an authorized user under the license for University Hospitals of Cleveland, Cleveland, Ohio. Their license is a broad scope license. Letters attesting to that approval are enclosed.

If you have any questions, please feel free to contact us or our consultant, David Close at 440-350-1242.

Sincerely,

Clete Yoder
