Division of Construction Inspection
& Operational Programs
Office of New Reactors

SUBJECT: SUMMARY OF JANUARY 10, 2008, CATEGORY 2 PUBLIC
MEETING WITH THE NUCLEAR ENERGY INSTITUTE TO DISCUSS
HEALTH PHYSICS ISSUES FOR NEW REACTORS

On January 10, 2008, the Nuclear Regulatory Commission (NRC) staff met with members of the Nuclear Energy Institute (NEI) to discuss new reactor health physics issues. Enclosure 1 lists the meeting attendees.

A public meeting notice was issued on December 21, 2007, and was posted on the NRC's external (public) web page (Agencywide Document Access Management System (ADAMS) Accession No. ML073541088). The notice included the meeting agenda, which was also available as a handout at the meeting. The discussions included:

- NEI Health Physics Template General Guidelines
- NRC Comments on Template NEI 07-08
- Scope and Content of Template NEI 07-09 (ODCM)

NRC staff began the meeting by discussing general guidelines for the content and use of the radiation protection program health physics templates (ML080380468). Following this discussion NRC staff provided an additional meeting handout (ML080150464) detailing their comments and feedback on a draft version of NEI 07-08, "Generic FSAR Template Guidance for Ensuring that Occupational Radiation Exposures are As Low As Is Reasonably Achievable (ALARA)."

NRC staff provided feedback to industry representatives on the scope and content of NEI 07-09, "Generic FSAR Template Guidance for Offsite Dose Calculation Manual (ODCM) Program
