												U	There are many K/As listed on the Rejected KA form (ES-401-4) for the RO and SRO exams with a generic justification of not addressed by 10CFR55.41/43. Many of these deleted KA's appear to have been inappropriately rejected. Followup with licensee to determine if the software being used to generate the outline automatically rejects these KA's. Following the discussion with the licensee, the rejected KA's were reinstated for the exam.
												S	The written exam outline and sky scraper are satisfactory with the exception of the rejected KA's as noted above.
