Re: Amendment request for the closure and decommissioning of one licensed site at 687 Campbell Ave, West Haven, CT

Dear Sir or Miss:

We have closed the West Haven office of our nuclear cardiology imaging practice. The sealed sources were removed and transferred to the other licensed site of 2200 Whitney Avenue, Suite 140, Hamden, CT. Wastes were allowed to decay for greater than 10 half-lives and then removed as normal or biomedical trash, as appropriate.

The last day for the receipt of radioactive material and patient imaging was Jan. 24, 2008. The final area and contamination surveys were performed on January 31. The following data summarizes the final survey for ambient radiation (mR/hr) levels and removable contamination from selected areas of the closed office. The background radiation survey ranged from 0.02 - 0.03 mR/hr, and as expected, no contamination was found on site.

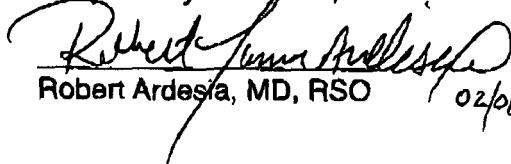

| <u>Area</u> | <u>mR/hr</u> | <u>Wipe Test</u> |
|--|--------------|------------------|
| Exam (prep) room | 0.02 | Passed |
| Changing rooms | 0.02 | Passed |
| Stress Lab | 0.02 | Passed |
| Imaging Area, exam table | 0.02 | Passed |
| Treadmill | 0.02 | Passed |
| Flooring, counter tops | 0.02 | Passed |
| Hot Lab & counter tops (including waste storage spaces) | 0.02 | Passed |

Office unrestricted Areas:

| | | |
|--------------|------|--------|
| Reception | 0.02 | Passed |
| Waiting room | 0.02 | Passed |
| Hallway | 0.02 | Passed |
| Bathroom | 0.02 | Passed |

Please expedite this amendment request. The building owner already has a new tenant for the space. If you have any questions, do not hesitate to contact me at 203-248-9600.

Respectfully submitted,

Robert Ardesia, MD, RSO 02/08/08
