REGION III  
2443 WARRENVILLE ROAD STE 210  
LISLE, ILLINOIS 60532-4351

JAN 30 2008

Smruti S. Parikh, M.D.  
Radiation Safety Officer  
Lansing Cardiovascular Consultants, P.C.  
3413 Woods Edge Drive  
Okemos, MI 48864

Dear Dr. Parikh:

Enclosed is Amendment No. 06 to your NRC Material License No. 21-32012-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In reviewing your letter dated October 15, 2007, I noted the following statement: "This facility is exempt from decommissioning due to low volumes and short physical half-lives of materials used." This is incorrect. Your facilities are subject to decommissioning when active use of licensed materials ceases. Please contact me at 630-829-9841 if you require further clarification.

In correspondence dated October 15, 2007, and January 3, 2008, you indicated that you wished to release your former location of use at 2395 Jolly Road, Suite 145, Okemos, Michigan for unrestricted use.

The NRC staff has reviewed your final status surveys. Based on its review, the staff has concluded that all licensable radioactive material has been removed and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required for this location and it is suitable for unrestricted use.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

S. Parikh

2

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in cursive script that reads "Colleen Carol Casey".

Colleen Carol Casey  
Materials Licensing Branch

License No. 21-32012-01  
Docket No. 030-34507

Enclosure:

Amendment No. 06
