Maj Rodgers,

Yes - please provide a response to HQs with cc: to RIV. Additionally, I was told that we can telephonically/electronically approve an extension request. Since Lt. Col Nichelson made an extension request yesterday, please consider it approved. So you have an additional 30 days.

I'll keep this email in our correspondence file.
If you have any additional questions, please let me know.
V/r,
Rachel

Ms Browder,

The NoV letters state to send the response to Washington DC with a CC to NRC region IV. Is this what we should follow? Historically, we have sent all NoV correspondence to Region IV.

In addition, the letter states to send all contestments to a different section in Washington with a CC to Region IV. Is this too correct?

Currently, we have two of the three responses, with the third being revised for the third time. Our suspense is basically tomorrow. We might need to ask for an extension; we all are out of the office most of the day tomorrow and today to is going by quickly. Thanks.
