Scott P. Murray, Manager
Licensing & Liabilities COE
GE Nuclear
3901 Castle Hayne Road
Wilmington, NC 28402

SUBJECT: UPDATED STANDARD PRACTICE AND PROCEDURES PLAN FOR
PROTECTION OF CLASSIFIED MATTER (TAC L32641)

Dear Mr. Murray:

This letter is in response to your submittal dated October 26, 2007, by which you transmitted Standard Practice Procedures Plan (SPPP) Revision 6, for the Wilmington, North Carolina facility.

By review of the submittal listed above, the U.S. Nuclear Regulatory Commission (NRC) determined that the SPPP revision was submitted in accordance with the provisions of 10 CFR 70.32(e), and the changes do not decrease the effectiveness of the SPPP. Accordingly, the changes to your SPPP are acceptable, and Safeguards Condition SG-4.1 of license SNM-1097 will be updated in a future amendment to reflect the current revision.

TAC L32641 remains open for other SILEX test loop amendment activities.

All other conditions of this license shall remain the same.

If you have any questions regarding this matter, please contact Merritt N. Baker of my staff at (301) 415-6155, or by e-mail at MNB@NRC.gov.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

/RA/

Peter J. Habighorst, Chief
Fuel Manufacturing Branch
Division of Fuel Cycle Safety
and Safeguards
Office of Nuclear Material Safety
and Safeguards

Docket No.: 70-1113
License No.: SNM-1097
