Amendment No. 15

13. The licensee may transport licensed material or deliver licensed material to a carrier for transport in accordance with the provisions of Title 10, Code of Federal Regulations, Part 71, "Packaging of Radioactive Material for Transport and Transportation of Radioactive Material Under Certain Conditions."
14. Licensed material (excluding xenon and generators) may be delivered to licensee vans that are located at temporary sites and occupied by Mirview personnel.
15. Radioactive waste generated by the licensee may be picked up by a nuclear pharmacy from vans located at temporary job sites and occupied by Mirview personnel.
16. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. This license condition applies only to those procedures that are required to be submitted in accordance with the regulations. Additionally, this license condition does not limit the licensee's ability to make changes to the radiation protection program as provided for in 10 CFR 35.26. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.
- A. Application dated May 1, 2002;
- B. Facsimiles dated July 21, 2002, transmitting letter dated July 18, 2002, August 12, 2002, and March 24, 2005;
- C. Letters dated April 8, 2003 and May 1, 2003; and
- D. Facsimile letter dated November 20, 2007.
