SUBJECT: UniStar Nuclear, NRC Project No. 759  
Notification of Site Selection

REFERENCE: Letter from R. M. Krich (UniStar Nuclear) to U.S. Nuclear  
Regulatory Commission, "UniStar Nuclear, Project Nos. 733  
(AREVA NP) 746 (UniStar Nuclear) 750 (Ameren UE), and  
752 (Amarillo Power), Response to Regulatory Issue  
Summary 2007-08, Updated Licensing Submittal Information  
to Support the Design – Centered Licensing Review  
Approach," dated May 31, 2007

In our response to NRC Regulatory Issue Summary (RIS) 2007-08 (Reference), UniStar Nuclear identified an "... as yet unspecified Constellation site..." for which a Combined License (i.e., COL) would be prepared and submitted to the NRC in the fourth quarter of 2008. The purpose of this letter is to notify the NRC that the Nine Mile Point Nuclear Station site has been selected as the basis for a COL application that will be submitted to the NRC subsequent to the reference COL application for the Calvert Cliffs Nuclear Power Plant (CCNPP) site. The schedule for the submittal remains the fourth quarter of 2008. As we have stated before, no decision to build a U.S. EPR at the Nine Mile Point site has been made at this time.

If you have any questions or need additional information, please contact me at (410) 470-5518.

Respectfully,

A handwritten signature in black ink, appearing to read "R.M. Krich".

R.M. Krich
