MEMORANDUM FOR OLEG BUKHARIN NRC

FROM:

Michael D. Flynn NNSA/OST/OMO Manager

SUBJECT:

Office of Secure Transportation Federal Agents

ISSUE:

Unescorted Access at "2" NRC regulated sites: BWXT
Lynchburg, and NFS Erwin.

DISCUSSION:

1. The DOE/NNSA/OST employees identified on the attachment which is sent out Semi-Annually to the two NRC sites have attended general physical security and radiation protection in accordance with 10 CFR 19.12.
2. As stated on the Agent List they are all "Q" Cleared. In the future OST plans on sending out an updated Agent list quarterly.
3. During normal operational activities at the listed NRC Sites, the OST Federal Agents are escorted. There are occasions where due to a minimal number of escort's onsite, the Federal Agents are allowed unescorted access to restroom or break areas directly around the loading/offloading areas.

POLICY IMPACT:

Please distribute a copy of this memorandum to the two NRC sites for their records.

SENSITIVITIES:

The Certification List (attachment) is Official Use Only

RECOMMENDATION:

Recommend that the Federal Agents continue to be allowed unescorted access to area's around the loading/offloading areas of the site.

Attachments:

Certification List of NNSA USDOE Office of Secure Transportation Federal Agents January 1, 2008.
