Dear Mr. Allard:

We have reviewed the Pennsylvania license condition that was submitted to address 10 CFR 71 received by our office on January 22, 2008. This license condition was reviewed by comparison to the equivalent NRC rules in 10 CFR 71. We discussed our review of the license condition with Ben Seiber on February 11, 2008.

As a result of our review, we have no comments. We have determined that the Pennsylvania license condition meets the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Management Programs (FSME) Procedure SA-200. This letter is posted on the FSME website:  
<http://www.hsrdoernl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the review results, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Kathleen Schneider, State Regulation Review Coordinator at (301) 415-2320 (email: [kxs@nrc.gov](mailto:kxs@nrc.gov)) or Monica Orendi at (301) 415-3938 (email: [mlo1@nrc.gov](mailto:mlo1@nrc.gov)).
