SUBJECT: FRANKLIN & MARSHALL COLLEGE, VOIDANCE OF APPLICATION FOR
LICENSE AMENDMENT, CONTROL NO. 141617

Dear Mr. Kingston:

This concerns the subject application for an amendment to your material license. We have determined that your license currently authorized the requested activity. We have, therefore, voided your application. This action is taken without prejudice to the resubmission of your request.

The reason why the action was voided was because License Condition No. 10 allows for the use and storage of licensed material on the Main Campus of your college. It was determined that the facilities described in the amendment request were part of the Main Campus and did not meet the special use laboratories criteria described in NUREG-1556, Volume 7. You should maintain a history of the types of use of licensed materials in this laboratory and any of the information necessary for decommissioning described in 10 CFR 30.36.

Thank you for your attention to this matter.

Sincerely,

Original signed by Steven Courtemanche
