RE: Mail Control 141572

In response to your email to Mr. Tokarz, the Radiation Safety Officer for this license will be Robert J. Tokarz, M.S., DABR. Mr. Tokarz is currently the Radiation Safety Officer on NRC license: 29-17475-01.

Shielding that will be used in the hot lab includes the following:

- Lead bricks to form a cave for the storage of radioactive material.
- Lead L for the preparation and handling of radioactive material.
- Lead-lined waste container for the storage of waste contaminated with radioactive material.
- Syringe shields.
- Vial shields.
- Remote handling device

Regards,

Alan Kalischer, M.D.
