SUBJECT: NRC INSPECTION REPORT 030-29000/08-01 AND NOTICE OF VIOLATION

Dear Mr. Alexander:

This refers to the inspection conducted on January 16, 2008, at your facility in Cody, Wyoming. The inspection was an examination of activities conducted under your license as they relate to safety and compliance with the Commission's rules and regulations and with the conditions of the license. Within these areas, the inspection consisted of selected examination of procedures and representative records and interviews with personnel. Preliminary inspection findings were discussed with you, at the conclusion of the onsite portion of the inspection. A final exit briefing was conducted with you on January 31, 2008.

Based on the results of this inspection, the NRC has determined that one violation of NRC requirements occurred. The violation involved the failure to amend the license to reflect a new Radiation Safety Officer. This violation was evaluated in accordance with the NRC Enforcement Policy, included on the NRC's website at www.nrc.gov/about-nrc/regulatory/enforcement.html. The violation identified during the inspection is cited in the enclosed Notice of Violation (Notice). This violation is being cited in the Notice because it was identified by the NRC, rather than being self-identified by the licensee.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. For your consideration and convenience, an excerpt from NRC Information Notice 96-28, "SUGGESTED GUIDANCE RELATING TO DEVELOPMENT AND IMPLEMENTATION OF CORRECTIVE ACTION," is enclosed. The NRC will use your response, in part, to determine whether further enforcement action is necessary to ensure compliance with regulatory requirements.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter, Enclosure 1, and your response will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS), accessible from the Web site at <http://www.nrc.gov/reading-rm/adams.html>. To the extent possible, your response should not include any personal privacy, proprietary, or safeguards information so that it can be made available to the public without redaction.
