In the interest of convenience and expediency, requester prefers contact by email or phone.

Fee Category: Private Corporation

**Request Description:** All records and information pursuant to the development of regulation **10 CFR 20.303(d)**; the total quantity limits for discharge to the sanitary sewer. This regulation was superseded by 10 CFR 20.2003(a)(4); however, the total quantity limits for discharge were unchanged. UniTech is seeking the original technical basis and considerations for the total quantity limits when they were initially promulgated. DO NOT supply any documents supplied in response to FOIA 2007-0308 as none of those documents were truly responsive to the associated request.

Requested records include, but are not limited to, the technical basis, statements of consideration, questions and answers during the initial rule-making process, data to support the limits, and any and all related information.

No information is requested pursuant to other sub-paragraphs of the rule. Specifically, no information is requested regarding 10 CFR 303 (a), (b), or (c), or corresponding sub-paragraphs of 10 CFR 20.2003. Further, no information is requested regarding the adoption of New Part 20, specifically 20.2003, to the extent information does not specifically address the technical basis for the total quantity limits for discharge to the sanitary sewer.
