RULEMAKINGS AND  
ADJUDICATIONS STAFF

Gentlemen:

I am a concerned resident of Utah. I am writing in reference to an application made by Energy Solutions Co. to bring Italian nuclear waste products to our state. I am asking you to deny this application. There are serious health issues associated with the storage of nuclear waste products. I do not feel that we are responsible for the storage of the Italian's, or the world's nuclear waste. They should be responsible for their own waste disposal. If we open the door to this proposal, we will not be able to close it.

PLEASE, I beg of you, deny this application. If you allow this to happen I believe we will all live to regret it. Thank you for your consideration in this matter. I am trusting that your good judgement will override the desires of Italy and private industry to make Utah a dumping ground for nuclear waste.

Very truly yours,
