**Subject:** energy solutions waste

I am greatly opposed to hauling in waste from Italy into Utah. We do not need another states waste let alone waste and garbage from another country. This is just another money making ploy. I think we can think of other ways that would be more constructive fir making money than bringing in nuclear waste from Italy and dumping it in Tooele County. I have children, grand children and hopefully, great grand children growing up in this area. Please hear our people.
