Secretary
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Attn: Rulemaking & Adjudication Staff

Greetings:

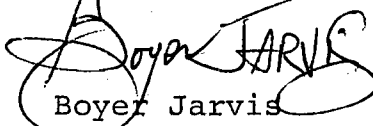

Energy Solutions is asking for permission to import a large amount of nuclear waste from Italy, process the stuff in Tennessee and deposit the radioactive residue in Utah. Thereby, Energy Solutions expects to make a huge financial profit.

What is good for Energy Solutions is very bad for the security of the United States of America, and for the people living in Tooele and Salt Lake Counties in Utah.

The United States of America must not accept nuclear waste from any foreign country.

As an elderly, concerned citizen, I respectfully appeal to the Nuclear Regulatory Commission to deny the Energy Solutions request.

Very truly yours,

Boyer Jarvis
