Regulatory Commitment Change
Corrective Action Program Self-Assessment Scheduling Change

Reference: (1) Letter from NMC to NRC dated February 10, 2006 (ML060440285)

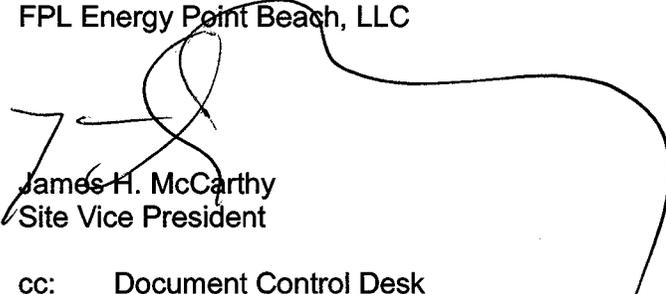

Reference (1) contained a regulatory commitment associated with the Point Beach Nuclear Plant (PBNP) Corrective Action Program (CAP):

“Perform alternating independent assessments and self-assessments of CAP at six-month intervals over the next two years.”

The final CAP self-assessment was scheduled to be performed in January 2008. As a result of emergent plant issues, this self-assessment has been rescheduled to May 2008.

Very truly yours,
