Dear Sir:

Please make the following adjustments to our materials license.

Remove Items 6E and 6F from our license.

Sulfur 35 was never utilized for research purposes at our facility. The last P-32 shipment for research was received on 7/22/1996. No research has been performed since that time. No other radionuclides have been utilized for medical in-vitro research.

Please remove Albert El-Roeiy, MD as an authorized user for the above items.

Please contact Diana Stockdale, our Radiation Safety Officer at 610-447-2549 if you have any questions or require additional information.

Sincerely,
