RE: License No. 47-25358-01

Docket No. 030-34138

To Whom It May Concern:

Please accept this letter as notification that we are currently in the process of relocating our Nuclear Medicine Department. The department is currently located on the first floor.

We are requesting to move our imaging room and stress room to the fourth floor, due to the purchase of a new camera and its size. It will be located in what is currently known as ultrasound. The stress room will be in what is now the transcription room. Attached to this request is an annotated drawing of the areas along with the locations of the daily surveys. Since the relocation is not finalized, some areas and details are subject to change. We will notify you with any changes to the layout.

A letter requesting decommission of the current room will follow. Please feel free to contact us with any suggestions or concerns. I would like to respectfully request consideration for expedited process of this amendment if at all possible.

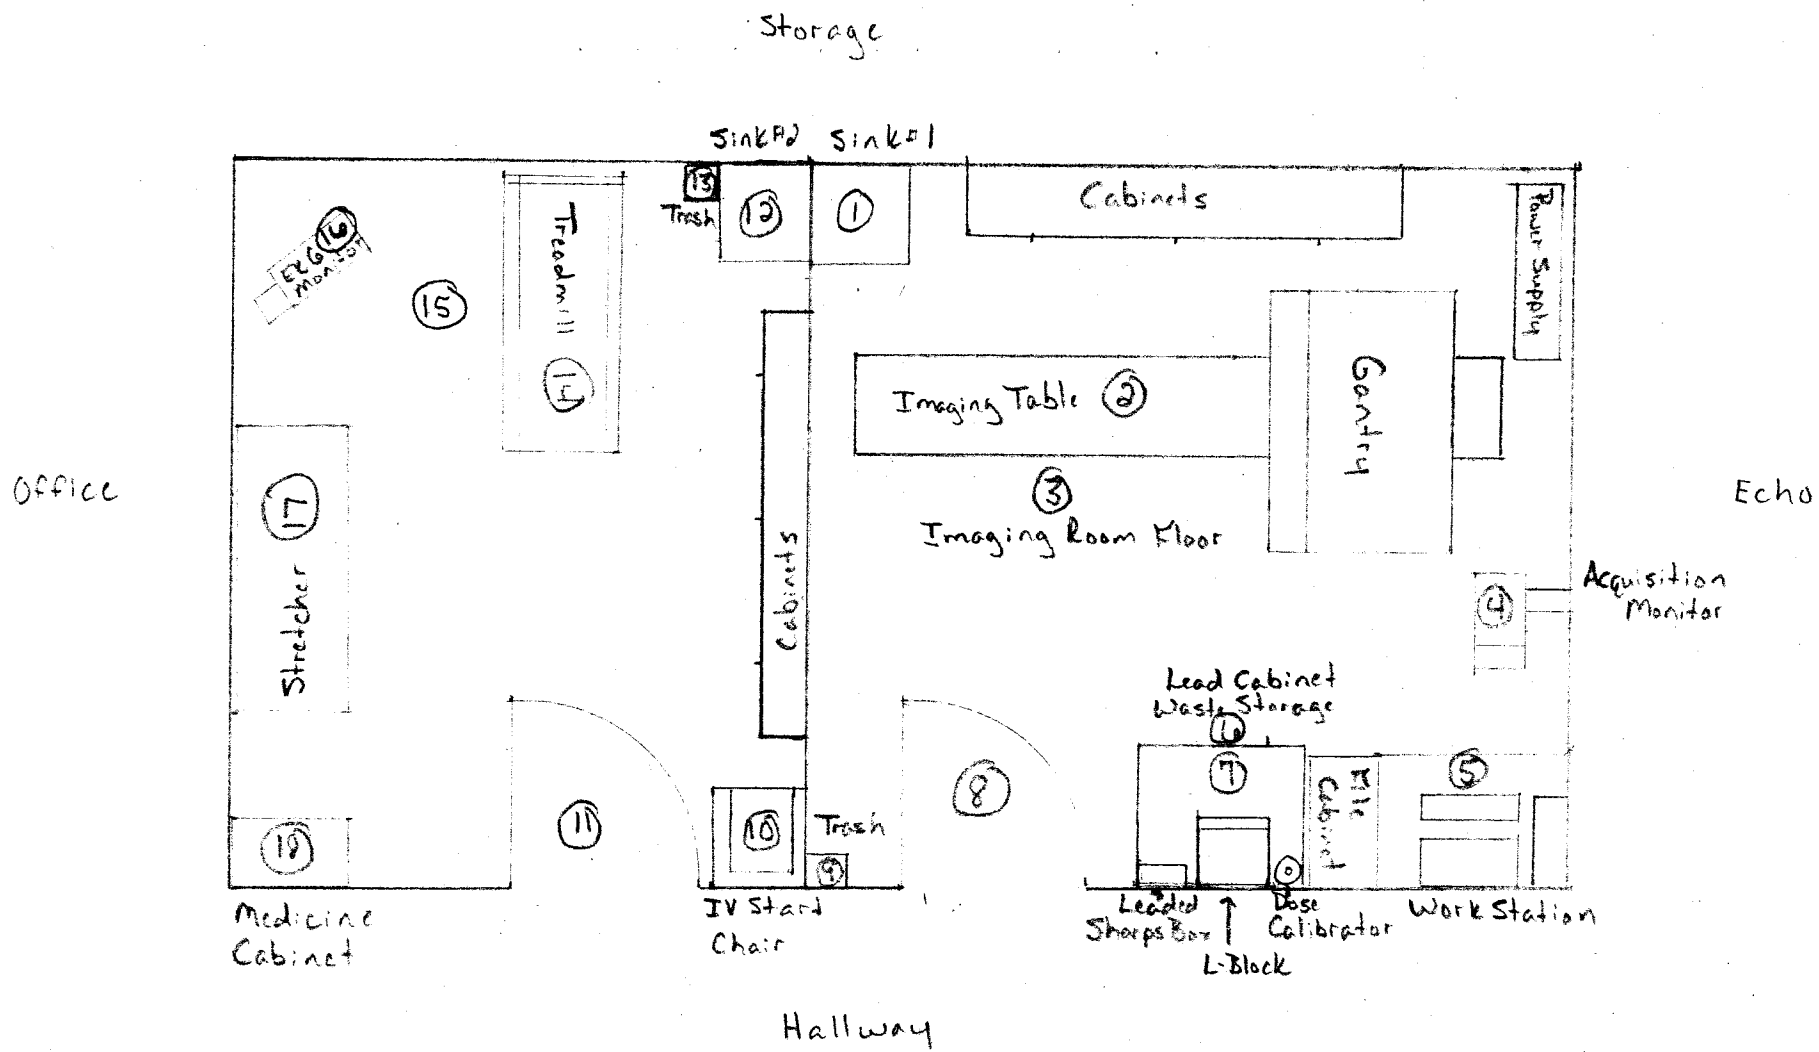

Thank you for your attention to this matter.
