UNITED STATES NUCLEAR REGULATORY COMMISSION  
Region III, Materials Licensing Section  
2443 Warrenville Road  
Suite 210  
Lisle, IL 60532-4352

- A. The amount of time that will be spent at Complete Diagnostic Services, Inc. will be on a quarterly basis unless additional time is required. This is an outpatient diagnostic nuclear medicine clinic that is limited to 35.100 and 35.200 usage only.
- B. The amount of time for me to respond to an emergency involving radioactive material will vary depending upon my activities that day. Typically I would be able to respond immediately by phone. All facilities have both my cell phone and office phone numbers. The office staff at Medical Physics Consultants, Inc. has a copy of my daily schedule at all times. The staff has phone numbers to any location that I might be working.

Medical Physics Consultants, Inc. has an answering service that operates 24 hours a day, 7 days a week, 365 days a year. They have phone numbers for my home, cell, and office. If for some reason they are not able to contact me, they have a list of other physicists that are employed by Medical Physics Consultants, Inc. to contact. Many of these individuals are board certified physicists with a great deal of expertise. This same mechanism has been in place for years whenever one of our facilities is in need of immediate expertise and advice. If we are contacted for a radiological emergency, we direct the account to notify the appropriate management individual.

- C. As a consultant at Medical Physics Consultants, Inc, I am given the flexibility in my schedule to address both my contractual and regulatory obligations to any facility that I am listed as the Radiation Safety Officer. Currently, I am contracted at 36 facilities and listed as the RSO at one facility.

The position of Radiation Safety Officer is what we are contracted for by these facilities. All facilities have a signed contract by both the facility and Medical Physics Consultants, Inc. These contracts clearly outline both my responsibilities and the facilities. All facilities have signed a RSO / Management Agreement form that is available for review by the NRC.

RECEIVED FEB 20 2008

All facilities are audited on a quarterly basis which is the standard of practice. These audits are forwarded to both management and the supervising technologist. These audits are reviewed and signed by both of these individuals.

- D. There will be no adverse impact due to being the RSO at more than one facility because I am given the flexibility in my schedule to address both my contractual and regulatory obligations to any facility that I am listed as the Radiation Safety Officer.
- E. I have been a consultant employed by Medical Physics Consultants, Inc. for 7 years. I have many years of experience with respect to compliance with NRC regulations and facility inspections. Historically, I have been able to manage my time adequately to perform all job duties including duties as the Radiation Safety Officer.

If you have any question or if I may be of assistance, please contact me by phone at (734)662-3197.

Thank you for your cooperation.

Sincerely,

Executive Management  
Complete Diagnostic Services

Kevin B. Miller, B.S  
Radiation Safety Officer  
Medical Physics Consultants

Re: Amendment to NRC License No. 20-32638-01

We would like to amend our current NRC license to reflect the following changes.

**Item #1** Please remove the following individual as the Radiation Safety Officer:

James M. Botti, M.S.

**Item #2** Please list the following individual as the Radiation Safety Officer on our NRC license.

Kevin B. Miller, B.S.

Mr. Miller is currently listed as a Radiation Safety Officer on the following NRC license #21-32616-01.

If you have any questions or require additional information, please contact our physics consultant, Kevin B. Miller, Medical Physics Consultants at 734-662-3197.

Sincerely,

Executive Management  
Complete Diagnostic Services

Re: Radiation Safety Officer / Executive Management  
Letter of Understanding

Dear Mr. Miller:

You have been appointed the Radiation Safety Officer (RSO) of this facility for our United States Nuclear Regulatory Commission Materials License. This "Letter of Understanding" is prepared to comply with Title 10 Code of Federal Regulations (CFR) Part 35.24(b). This section of the regulations requires that you agree in writing to the following:

- Assume responsibility for implementing the Radiation Protection Program
- Ensure that radiation safety activities are being performed in accordance with our own approved procedures and all regulatory requirements.

Furthermore, in compliance with 10 CFR 35.24(e), (g), the executive management of this facility agrees to provide you as RSO:

- Specific written notation of your authority, duties and responsibilities, see attached.
- Sufficient authority, organizational freedom, time, resources and management prerogative to:
  1. Identify radiation safety problems;
  2. Initiate, recommend, or provide corrective actions;
  3. Stop unsafe operations; and
  4. Verify implementation of corrective actions.

Our signatures noted below will attest to the issues noted above. Please make a copy of this document for your files and return the original to my attention.

Sincerely,

  
Executive Management  
Complete Diagnostic Services
