Orysia:

The NC Department of Environment and Natural Resources through the Radiation Protection Section of the Division of Environmental Health has completed its review of Docket No. 030-29462: Environmental Assessment of Building 133 at the Naval Air Depot in Cherry Point, NC.

The NC Radiation Protection Section agrees with your finding that there are no significant environmental impacts from the proposed action. Our agreement is based on the Navy's use of DANDD code and utilization of the suggested resuspension factor in NUREG-1720 satisfying unrestricted release. This docket was reviewed by both the Radioactive Materials Branch and the Environmental Branch of the NC Radiation Protection Section. Please let me know if you need anything further. Thanks!
