Energy Solutions, formerly Envirocare was a scam from the outset.

"The scandal, now under investigation by the FBI, became public when Larry Anderson, the former director of the Utah Bureau of Radiation Control, admitted accepting \$600,000 in cash and property from Envirocare President Khosrow Semnani between 19X7 and 1993. The admission came when Anderson retired and subsequently sued Envirocare for an additional \$5 million, claiming he was underpaid."

Now this pattern of our country being sold out to corporate interests is going on unabated and nothing has changed in the Utah Bureau of Radiation Control.

Also, why are the only two uranium mills in the US owned by Canadian companies?
