Subject:	Opposed to EnerySolutions radioactive waste plan	

Dear NRC,
I am extremely opposed to the plan to allow EnergySolutions to ship radioactive waste from Italy through Charleston.
It is unfair and unwise to allow the radioactive waste to pass through Charleston SC, potentially putting our citizens at risk—with the only potential benefit from this shipment being the money that EnergySolutions will make on this business transaction.

There is absolutely nothing good for the Charleston citizens about this possible business transaction—and many potential harms re risks to security and health by allowing this radioactive shipment into our area.
Please deny this company the right to proceed with this business plan.
Thank You.
Best,
Bobbi Conner
