Subject: radioactive waste not in Utah

DOCKETED
USNRC

February 20, 2008 (3:20pm)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

To the Secretary,

My comment about the issue of allowing a foreign entity to export their unwanted waste to this country, and specifically to the limited-sized repository in Utah is that:

1. From the viewpoint of any other country contemplating what to do with their waste (and there must be many) the US is going to look like the place to go. How can we stop EnergySolutions or any other company from accepting others' waste if we don't act to stop this licence application?
2. Since the landfill, by Utah law has a limited capacity, then we should certainly consider saving that space for domestically produced waste first, especially since there are not many other options at present.

As a resident of Utah, of course I must admit to having a bias, but I don't believe that the reasons above are affected by that. Thank you for your attention.

Sincerely,
Harrison Smithwick
Salt Lake City, Utah
