Subject: Receipt of Quarterly Status Report- January 2008

Hi Gerry,

I received the Westinghouse Electric Company's January 3, 2008 submittal of the Quarterly Status Report for the Nuclear Criticality Safety Improvement Project, covering the period of October 2007 to December 2007. This submittal is required under Safety Condition S-3 of SNM-1107.

The report has been shared with the NRC staff and we have no questions at this time. We will continue to monitor the project's progress, and an inspection may be performed at a future date, in accordance with our inspection schedule.

If you have any questions, feel free to call me.

Thanks,
Breeda
