**Subject:** Nuclear Waste in charleston

I am writing to express my grave concerns regarding importing nuclear waste from other countries and shipping it through Charleston Harbor.

The United States of America does not know what to do with its own nuclear waste since the lifetime is so incredibly long.

Charleston has its own problems with Mercury poisoning from coal plants. The nuclear waste could finish off the wildlife, not to mention human life, in this harbor.

I am not in favor of nuclear energy in this country because of the environmental issues. Why on earth would we want to import other countries' problems.

For the sake of the safety of Charlestonians, and all Americans, please do not allow this company's desire for money outweigh the wishes of the rest of us.
