DOCKETED
USNRC

February 20, 2008 (3:20pm)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear Sirs,

As United States citizens and voters concerned with health issues as well as quality-of-life matters we do not consider it prudent for you to allow the EnergySolutions company to accept low level radioactive waste from European countries, indeed any country.

EnergySolutions is not a good corporate citizen operating in good faith. They are always seeking to "expand the envelope" of the rules our government has permitted them to operate under. No one in our state of Utah ever expected our home to become the world's hazardous waste dumping ground. There is a good reason why such materials are not allowed to be disposed of anywhere on the continent of Europe; please don't let Europe's problem become Utah's problem, too.

Sincerely,

Kim T. Bene'

Kay A. Bene'
