Subject:	NO FOREIGN NUKE WASTE

Sir,

I have been a nuclear worker in the US for almost 40 years, I still do contract work, and I am against bringing in foreign nuke waste to this country. We need to take care of our own waste. For us to start building new nukes for the future, lets think of ourselves and our workers. If Italy is building nukes, then they need to be responsible for their waste. Why do we need to store it.

We also need to speed our process for building nukes. It's the only way to go into future for our country, wind will not do it, coal and oil is bad. So, us pro-nukes believe that it will benefit out workforce, the air we breathe.

Sincerely,
David Suloff
