Subject: Please Deny EnergySolutions' Import Application submission

Insert personal comments here : Despite EnergySolutions' claims to the contrary, the Italian waste import is not "business as usual." In fact, it appears to be 10 times larger than ALL previous waste imports granted by the NRC combined.

Allowing EnergySolutions to dispose this waste will set a bad precedent for the large scale disposal of foreign nuclear waste in the U.S. and Utah:

No foreign country has disposal options for all of its low-level radioactive waste. EnergySolutions has identified foreign contracts as key for its shareholders. This is not a one-time deal and could be a sign of much more to come.
