Mr. Merlin B. Kingston

To Secretary U.S. Nuclear Regulatory Commission
Washington D.C. 20555-0001 attn: Rulemaking and
adjudication staff.

In reading my news paper this morning I find out that
Energy Solutions' Plan is to make our wonderful State
of Utah a dumping ground for States' Nuclear waste.

I want you to know I am definitely against waste
of any kind to be hauled over here to Utah or any other
state in America. Let every country in the world
take care of their own waste. also let every state in the
U.S. take care of their own waste, that is the
sensible way to handle this problem.
