Ms. Jones,

In addition to the information requested the my previous e-mail below. I need the dimensions of all labeling on the device to include radius of the trefoil, the hieght and depth of the text etched on the opposing side.

Thank you,

Joshua Palotay

Ms. Jones,

I am finishing up the certificate for the KRT-2000. I have a question.

In the application, the conditions of use state that "This model will be tested within licensed facilities only, and will not be fielded.

Does this mean that the device is intended to be demonstrated only at Qynergy facilities, by Qynergy personnel? Or do you intend to take the devise off site for demonstrations at a potential customer's facility who is licensed to possess the material?

Sincerely,

Joshua Palotay
