Insert personal comments here : It seems illogical to use fossil fuels to transport nuclear waste such a great distance. Doesn't that defeat the purpose on some level. Additionally, the health risks and security risks are of great concern to me. I love Salt Lake City! I love Utah! But I hate what is being done to our beautiful state! I will not sit idle and let Utah become the nations dumping ground and I certainly will fight to see that Utah is not the world's dumping ground!!!
