 Subject: Please Deny EnergySolutions' Import Application submission

Insert personal comments here : Governor Huntsman, I met you in my workplace several years ago, and thanked you for opposing some of the nuclear waste proposals for Utah that have been proposed since you took office. I want to thank you again, this time in advance, for opposing this most recent proposal of allowing 20-30 thousand tons of nuclear waste from Italy.

My main concern is for the health of Utah citizenry, and others that will be exposed to the potential hazard while the waste is treated and transported.

I was diagnosed in October 2007 with Breast Cancer, and am currently getting wonderful care and treatment through my health insurance.

I am very curious as to what does cause cancer. I wonder if my cancer could have been caused by the 3 Mile Island accident in Pennsylvania in 1979. I was a young mother who lived within 100 miles of the accident. I may be a 'down-winder' for that reason. I would like to prevent others from the possible hazards of this latest proposed nuclear waste disposal.

Please stand up for people that deserve a clean and healthful environment.

Thank you for your time and consideration.
