SUBJECT: NUCLEAR IMAGING GROUP, INC., APPLICATION FOR LICENSE
AMENDMENT, CONTROL NO. 140325

Dear Mr. Culp:

This concerns the subject application for an Amendment to your material license. Effective close of business on March 31, 2008, the Commonwealth of Pennsylvania will become an Agreement State and take over responsibility for licensing and inspection of byproduct, source and special nuclear material. This means that if the license amendment you requested cannot be completed by March 31, the review of this amendment request will be completed by the Commonwealth. We recently sent you a letter requesting significant additional information and it is apparent that these issues may not all be resolved prior to the Commonwealth taking over responsibility. Because of these circumstances, we have voided the original license action and created a new action now designated as Mail Control No.141902. Please refer to this Mail Control number in future correspondence.

Thank you for your cooperation.

Sincerely,
