February 20, 2008

U.S. Nuclear Regulatory Commission
Document Control Desk

Washington, D.C. 20555-0001

Attention: Document Control Desk
CC: Chief, Quality and Vendor Branch 1, Division of Construction Inspection and Operational Programs, Office of New Reactors

Subject: **REPLY TO A NOTICE OF NONCONFORMANCE**

Reference: Nonconformance 99900061/2007-201-02

1) Actions taken to correct nonconformance:

Form was completed on February 11 for the last notification sent to NRC, i.e. piston check CV information.

2) Actions taken to prevent recurrence:

Key personnel responsible for enforcing the procedure [i.e. QA Manager and the Manager of Nuclear Sales (acting on behalf of the President)] have been retrained on February 11.

3) Corrective and preventive action completion dates:

Corrective and preventive actions were completed on February 11.

We trust this meets with your acceptance. Should additional information be required please feel free to contact the undersigned.

Sincerely yours,

Velan Inc.

A handwritten signature in black ink, appearing to read 'Victor Apostolescu', is written over a rectangular area with a light gray dot grid background.

Victor Apostolescu, Eng.
Vice President Quality Assurance
