Subject: Please Deny EnergySolutions' Import Application submission

Insert personal comments here : You can skip the rest of the letter. The comments below reflect our position on this absurd request.

We are writing to urge the Nuclear Regulatory Commission to deny EnergySolutions' request to import 20,000 tons of Italian nuclear waste into the U.S. Why in the world the U.S. or Utah would want to receive and store this waste from Italy is incomprehensible. Utah's population may be thought of as a bunch of sheep, but this is way over the top. We've already been "downwinders" once.

The emergence of new and larger low-level nuclear waste sites due to foreign waste disposal constitutes an unreasonable risk to public health and safety.

Please by all means reject this application.
