

DOCKET NO. 11005711

DOCKETED
USNRC

254

Secretary, U.S. Nuclear Regulatory Commission
Washington, D.C.
ATTN: Rulemaking and Adjudication Staff

February 26, 2008 (10:30am)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

To whom it may concern,

I adamantly object to Utah being the landfill for the world's nuclear waste and any decision to prove otherwise is unacceptable.

It is bad enough that Energy Solutions is already using Utah as a dumping ground for nuclear waste and other hazardous materials for the United States. I also object to this. Let whoever creates the waste, find their own dumping ground in their own locale.

A concerned citizen,
