OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

To the Rulemaking and Adjudication Staff:

We, the undersigned, wish to oppose the EnergySolutionsInc. plan to import low level radioactive waste from Italy's dismantled nuclear power industry to our beautiful and well-populated state of Utah.

We feel it is an insult and a danger to us, as well as the surrounding areas. We are already subjected to unwanted waste from other states in the union.

Please, do not subject us to further danger with these toxic polutants. It may not effect us at the present time, but what about the generations to come?
