 Subject: Fw: nuclear waste disposal

Here's another chilling thought: al Qaeda, in planning the 9-11 attacks, made use of our own airliners and our own tall buildings to kill thousands of Americans. Rather than smuggling nuclear material here to make a dirty bomb, why should they not simply attach easily obtained explosives to radioactive material from Italy and other countries that are being recruited by Energy Solutions to ship nuclear waste to us? Nuclear material could be exploded on the east coast or anywhere else across the country. Rivers and wind could spread that stuff to a lot of people along the way. Terrorists could affect the health of tens of millions of Americans for hundreds of years with a few dollars' expense. What an invitation to al Qaeda. What a mindless abuse of America by Energy Solutions. Why do we go clear to the Mid East to ward off al Qaeda terrorism when Energy Solutions wants to make a profit by bringing dirty bomb potential to our coast and heartland by ship and by rail?

Dr. Robert C. Bennion

 > Subject: nuclear waste disposal

>> Dear Charlotte:

>> As you know, The Nuclear Regulatory Commission is inviting public
 >> comments on the application by EnergySolutions (formerly called
 >> Envirotech) to bring nuclear waste from Italy, transport it across
 >> the country, and store it at the company's site west of Salt Lake City.

>> Because our legislators have not taken an official stand, it is
 >> particularly important that residents of Utah express their opinions

>> on this matter. The Nuclear Regulatory Commission invites e-mails
>> and letters from the public regarding EnergySolutions' application
>> through March 12.
>>
>> If you are for or against Utah's becoming a global nuclear waste
>> dump, please write now, this very day. You may e-mail your comments
>> to secy@nrc.gov OR send a letter to Secretary, U.S. Nuclear
>> Regulatory Commission, Washington DC 20555-0001, Attn: Rulemaking and
>> Adjudication Staff. Give your full name and address in either case.
>>
>> I plan to e-mail the following simple message with my full name
>> and
>> address:
>> "I strongly oppose importation of nuclear waste from Italy to Utah.
>> It is imperative that development of nuclear power anywhere include
>> impeccable on-site permanent management of nuclear waste."
>>
>> Please forward this to all persons you know who care about safe,
>> effective, appropriate storage of nuclear waste. This is important
>> to Utah residents, and also to the rest of the country across which
>> waste would be transported.
>>
>> Francine
>>
>>
>>
